INDEX TO VOLUME 42

AUTHORS INDEX*

A

ADLER, NORMAN N., AND VAN SLYKE, ELLIS J., Congenital absence of the spleen, 471

ALLEN, FRED H., JR. (WITH HSIA, DAVID YI-YUNG, DIAMOND, LOUIS K., AND GELLIS, SYDNEY S.), Serum bilirubin levels in the newborn infant, 277

AREY, JAMES B., AND DENT, JOHN, Causes of fetal and neonatal death with special reference to pulmonary and inflammatory lesions, 1, 205

ASKUE, WILLIAM E., A comparison of Egressin and gentian violet in the treatment of enterobiasis (pinworm infestation), 332

AXLER, MORTON M., AND REHERMANN, ROBERT L., Partial eventration of the right diaphragm, 320

AXNER, CAROLYN (WITH CORIELL, LEWIS L., LABRA, CARMEN, SALTZMAN, EDWARD, AND SCOTT, T. F. MCNAIR), An evaluation of Benemid p-(di-n-propylsulfamyl)-benzoic acid: dosage schedule in children, 292

B

BAIRD, HENRY W., III, AND GARFUNKEL, JOSEPH M., A method for the measurement of cerebral blood flow in infants and children, 570

BAKWIN, HARRY, Juvenile delinquency, 387

—, Poor appetite in the newborn and young infant, 505

BAKWIN, RUTH MORRIS, The comics, 633

BARBA, WILLIAM P., II, AND FRERIKS, DICK J., The familial occurrence of infantile cortical hyperostosis in utero, 141

BARNESS, LEWIS A. (WITH GRAHAM, GEORGE G., AND GYÖRGY, PAUL), Serum calcium and inorganic phosphate in the newborn infant, and their relation to different feedings, 401

BARNETT, HENRY L., AND VESTERDAL, JØRGEN, The physiologic and clinical significance of immaturity of kidney function in young infants, 99

BARTLETT, WAYNE C. (WITH SHELLITO, JOHN G.), Intestinal resection in infants, 558

BECK, WILLIAM C., AND CHOHANY, GEORGE, Duodenal atresia, 432

BENENSON, A. S. (WITH KEMPE, C. HENRY), Vaccinia. Passive immunity in newborn infants. I. Placental transmission of antibodies. II. Response to vaccinations, 525

BERREY, BEDFORD H., AND KIMBALL, CECIL H., Chondrodystrophia calcificans congenita, 474

BLATTNER, RUSSELL J., Encephalomyocarditis, 267

—, Endemic poliomyelitis, 509

—, Epidemic pleurodynia, 770

—, Rheumatic fever, 129

—, The use of hyaluronidase in the treatment of acute hemophilic hemarthrosis, 392

BLOCH, HARRY (WITH LIPPSETT, SHIRLEY M., MILLER, ISRAEL, STEIN, FELIX, AND LIPPSETT, HERBERT L.), Immunization of newborn infants with pertussis vaccine, 301

BRADLEY, J. EDMUND (WITH DEANE, GARRETT E., AND HELDRICH, FREDERICK J., JR.). The use of BAL in the treatment of acute lead encephalopathy, 409

BRAUDO, J. L. (WITH HEYMANN, SEYMOUR, KESSEL, I., JACKSON, HARRIS, AND JAVETT, S. N.), Septic arthritis and osteomyelitis in infancy, 561

BUFKIN, JESSIE HARNED, AND DAVISON, WILBURT C., Childhood cancer (tumors, leukemia, and Hodgkin's disease), 612

BUMBALO, THOMAS S., GUSTINA, FRANCIS J., AND OLEKSIAK, ROSE E., The treatment of pinworm infection (enterobiasis) with papain, 576

C

CARNES, H. E. (WITH YOW, ELLARD M., TAYLOR, FRED M., HIRSCH, JOSEPH, AND FRANKEL, RICHARD A.), Chloromycetin palmitate. Observations on absorption, blood serum levels, and urinary excretion, 151

*January, pp. 1-140; February, pp. 141-276; March, pp. 277-400; April, pp. 401-524; May, pp. 525-644; June, pp. 645-780.

CHASET, NATHAN (WITH MATHIEU, BETTY J., GOLDOWSKY, SEEBERT, AND MATHIEU, PETER L., JR.), Congenital deficiency of the abdominal muscles (with associated multiple anomalies), 92

CHEEK, DONALD B., Pink disease (infantile acrodynia). A physiological approach. (An evaluation of adrenal function and the importance of water and electrolyte metabolism), 239

CHOHANY, GEORGE (WITH BECK, WILLIAM C.) Duodenal atresia, 432

COLBURN, CHARLES G. (WITH WEINSTEIN, LOUIS), The use of the electrophrenic respirator in the management of respiratory difficulty in postmeasles encephalitis, 580

CONLIN, GERALD J., JR., AND MANTZ, FRANK A., JR., Isolated myocarditis in infants, 414

COOKE, JEAN V., Chronic myelogenous leukemia in children, 537

—, The rate of growth in progeria, 26

CORIELL, LEWIS L., LABRA, CARMEN, SALTZMAN, EDWARD, AND SCOTT, T. F. MCNAIR, WITH TECHNICAL ASSISTANCE OF AXNER, CAROLYN, An evaluation of Benemid p-(di-n-propylsulfamyl)-benzoic acid. Dosage schedule in children, 292

CRAVEN, J. F., Treatment of obstructive atelectasis by aerosol administration of proteolytic enzymes, 228

CROSE, R. F. (WITH RUSHMER, ROBERT F., CRYSTAL, DEAN K., TIDWELL, ROBERT A., AND HENDRON, JOHN A.), Complete transposition of the great vessels, 189

CRYSTAL, DEAN K. (WITH RUSHMER, ROBERT F., TIDWELL, ROBERT A., CROSE, R. F., AND HENDRON, JOHN A.), Complete transposition of the great vessels, 189

CUTLER, CHARLES H., AND SILVER, HENRY K., Ovarian agenesis (congenitally aplastic ovaries) in a 3-year-old female, 352

D

DAVISON, WILBURT C. (WITH BUFKIN, JESSIE HARNED), Childhood cancer (tumors, leukemia, and Hodgkin's disease), 612

DEANE, GARRETT E., HELDRICH, FREDERICK J., JR., AND BRADLEY, J. EDMUND, The use of BAL in the treatment of acute lead encephalopathy, 409

DENT, JOHN (WITH AREY, JAMES B.), Causes of fetal and neonatal death with special reference to pulmonary and inflammatory lesions, 1

DENTON, ROBERT, AND ROSS, CHARLES D., Mist-O_2-Gen therapy and postural drainage for respiratory difficulties of the newborn infant, 551

DIAMOND, LOUIS K. (WITH HSIA, DAVID YI-YUNG, ALLEN, FRED H., JR., AND GELLIS, SYDNEY S.), Serum bilirubin levels in the newborn infant, 277

DOXIADIS, S. A., AND EMERY, J. L., A case of triatrial heart, 87

DURHAM, CLOTILDE (WITH FREEMAN, LELABELLE C.), Erythromycin in treatment of pyoderma in children, 669

E

EFFRON, ABRAHAM S., AND FREEDMAN, ALFRED M., The treatment of behavior disorders in children with Benadryl, 261

ELY, ROBERT S., KELLEY, VINCENT C., AND RAILE, RICHARD B., WITH THE TECHNICAL ASSISTANCE OF TIPPIT, DORIS F., Studies of 17-hydroxycorticosteroids in children. I. Peripheral blood levels in health and disease, 38

— (WITH RAILE, RICHARD B., AND KELLEY, VINCENT C.), Studies of 17-hydroxycorticosteroids in children. II. Response of blood levels to the injection of certain hormones, 46

EMERY, J. L. (WITH DOXIADIS, S. A.), A case of triatrial heart, 87

F

FALKINBURG, LEROY W., AND KAY, MAURICE N., A case of congenital sympathogonioma (neuroblastroma) of the right adrenal simulating erythroblastosis fetalis, 462

FARLEY, WILLIAM J., AND KONIECZNY, LEO, Terramycin by subcutaneous clysis, 177

FORBES, GILBERT B., Glycogen storage disease: report of a case with abnormal glycogen structure in liver and skeletal muscle, 645

FRANKEL, RICHARD A. (WITH YOW, ELLARD M., TAYLOR, FRED M., HIRSCH, JOSEPH, AND CARNES, H. E.), Chloromycetin palmitate. Observations on absorption, blood serum levels, and urinary excretion, 151

FREEDMAN, ALFRED M. (WITH EFFRON, ABRAHAM S.), The treatment of behavior disorders in children with Benadryl, 261

FREEMAN, LELABELLE C., AND SCOTT, ROLAND B., WITH TECHNICAL ASSISTANCE OF LAURITTA MORRIS AND CLOTILDE DURHAM, Erythromycin in treatment of pyoderma in children, 669

FREERIKS, DICK J., (WITH BARBA, WILLIAM P., II), The familial occurrence of infantile cortical hyperostosis in utero, 141

FRIEDMAN, ASA B. (WITH STICH, MELVIN H., RUBINSTEIN, JOSHUA, AND MORRISON, MAURICE), Mediastinal lymphosarcoma in an infant, 235

FRIEDMAN, EDWARD, JR. (WITH SCHWARTZMAN, JOSEPH, AND WEIN, GERALDINE), Effect of early immunization during infancy on kidney, liver, and blood tests, 450

FRIEDMAN, ROBERT H., AND HARTMANN, ALEXIS F., WITH THE TECHNICAL ASSISTANCE OF WOLF, HERMA, MORTON, MARIE, AND GERSTUNG, RUTH B., Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. I. The role of streptomycin as a reducing agent and the specificity of the Shaffer-Hartmann method for determining "true glucose" when this antibiotic is used (in vitro experiments), 157

—, THURSTON, DON L., AND HARTMANN, ALEXIS F., Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. III. A theory of the mode of action of streptomycin in vivo with a commentary on the current literature, 171

—, —, —, WITH THE TECHNICAL ASSISTANCE OF WOLF, HERMA, MINIKIS, DELORES, MORTON, MARIE, AND GERSTUNG, RUTH B., Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. II. Observations on the effect of intrathecal streptomycin treatment on the cerebrospinal fluid sugar in tuberculous meningitis, 161

G

GARFUNKEL, JOSEPH M. (WITH BAIRD, HENRY W., III), A method for the measurement of cerebral blood flow in infants and children, 570

GARRISON, ROY F., AND SWISHER, ROBERT C., Myocarditis of unknown etiology (Fiedler's?) treated with ACTH, 591

GELLIS, SYDNEY S. (WITH HSIA, DAVID YI-YUNG, ALLEN, FRED H., JR., AND DIAMOND, LOUIS K.), Serum bilirubin levels in the newborn infant, 277

GEORGIADE, NICHOLAS G., MASTERS, FRANK W., METZGER, JAMES T., AND PICKRELL, KENNETH L., Fractures of the mandible and maxilla in children, 440

GERSTUNG, RUTH B. (WITH FRIEDMAN, ROBERT H., AND HARTMANN, ALEXIS F.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. I. The role of streptomycin as a reducing agent and the specificity of the Shaffer-Hartmann method for determining "true glucose" when this antibiotic is used (in vitro experiments), 157

— (WITH FRIEDMAN, ROBERT H., THURSTON, DON L., AND HARTMANN, ALEXIS F.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. II. Observations on the effect of intrathecal streptomycin treatment on the cerebrospinal fluid sugar in tuberculous meningitis, 161

GIRSH, LEONARD S. (WITH KARPINSKI, FELIX E., JR., AND RIEDERS, FREDERIC), Calcium Disodium Versenate in the therapy of lead encephalopathy, 687

GLASER, JEROME, Substitutes for cow's milk in infant feeding, 734

GOLDOWSKY, SEEBERT (WITH MATHIEU, BETTY J., CHASET, NATHAN, AND MATHIEU, PETER L., JR.), Congenital deficiency of the abdominal muscles (with associated multiple anomalies), 92

GOLDSTEIN, NORMAN, Encephalopathy occurring during the topical use of Asterol, 726

GOLDWYN, ARTHUR, AND WALDMAN, A. MARTIN, Acute cerebellar ataxia in children, 75

GOTTSCHALK, EVA, The part of the technique of feeding in the etiology of the diseases of the young infant, 54

GRAHAM, GEORGE G., BARNESS, LEWIS A., AND GYÖRGY, PAUL, Serum calcium and inorganic phosphate in the newborn infant, and their relation to different feedings, 401

GRULEE, CLIFFORD G., JR. (WITH SPIVEY, OSCAR S., AND HICKMAN, BERNARD T.), Tetanus neonatorum, 345

GUSTINA, FRANCIS J. (WITH BUMBALO, THOMAS S., AND OLEKSIAK, ROSE E.), The treatment of pinworm infection (enterobiasis) with papain, 576

GYÖRGY, PAUL (WITH GRAHAM, GEORGE G., AND BARNESS, LEWIS A.), Serum calcium and inorganic phosphate in the newborn infant, and their relation to different feedings, 401

H

HARRISON, A. WILSON (WITH KILLINGSWORTH, W. PRICE, AND MCREYNOLDS, GEORGE S.), Pulmonary leiomyosarcoma in a child, 466

HARTMANN, ALEXIS F. (WITH FRIEDMAN, ROBERT H.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. I. The role of streptomycin as a reducing agent and the specificity of the Shaffer-Hartmann method for determining "true glucose" when this antibiotic is used (in vitro experiments), 157

— (WITH FRIEDMAN, ROBERT H., AND THURSTON, DON L.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. II. Observations on the effect of intratheeal streptomycin treatment on the cerebrospinal fluid sugar in tuberculous meningitis, 161

WILKINS, WARREN S. (WITH KELLY, VERMELLE C., AND SCOTT, ROLAND B.), Syndrome of anomalous left coronary artery, 731

WOLF, HERMA (WITH FRIEDMAN, ROBERT H., AND HARTMANN, ALEXIS F.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. I. The role of streptomycin as a reducing agent and the specificity of the Shaffer-Hartmann method for determining "true glucose" when this antibiotic is used (in vitro experiments), 157

— (WITH FRIEDMAN, ROBERT H., THURSTON, DON L., AND HARTMANN, ALEXIS F.), Mode of action of streptomycin in relation to the changes in spinal fluid sugar in tuberculous meningitis. II. Observations on the effect of intrathecal streptomycin treatment on the cerebrospinal fluid sugar in tuberculous meningitis, 161

Y

YOUNG, JACK R. (WITH LEE, CHI-HAO), Chylous ascites in siblings, 83

YOW, ELLARD M., TAYLOR, FRED M., HIRSCH, JOSEPH, FRANKEL, RICHARD A., AND CARNES, H. E., Chloromycetin palmitate. Observations on absorption, blood serum levels, and urinary excretion, 151

Z

ZWEIFLER, BEN (WITH LEVY, HAROLD), The use of Banthine Bromide in infantile pylorospasm, 673

SUBJECT INDEX*

A

Abdominal muscles, congenital deficiency of (with associated multiple anomalies) (Mathieu et al.), 92
Acrodynia (editorial), 400
and mercury (Warkany and Hubbard), 365
infantile: physiological approach (evaluation of adrenal function and importance of water and electrolyte metabolism) (Cheek), 239
ACTH, myocarditis of unknown etiology (Fiedler's?) treated with (Garrison and Swisher), 591
Adrenal insufficiency, hypertrophic pyloric stenosis associated with (Moree), 359
Aerosol administration of proteolytic enzymes, treatment of obstructive atelectasis by (Craven), 228
Alevizer, new continuous nebulizer for humidification and Alevaire therapy (Miller), 721
Allergy, bacterial (editorial), 519
Anemia, hemolytic, acute disseminated lupus erythematosus with, in 10-year-old child (Jacobs), 728
Angiography in case of hydranencephaly (Thelander et al.), 680
Antibiotic, choice of (Karelitz), 478
Appetite, poor, in newborn and young infant (Bakwin), 505
Arthritis, septic, and osteomyelitis in infancy (Heymann et al.), 561
Aspirin, infant deaths from (editorial), 276
Asterol, encephalopathy occurring during topical use of (Goldstein), 726
Atelectasis, obstructive, treatment of, by aerosol administration of proteolytic enzymes (Craven), 228

B

Bacterial allergy (editorial), 519
BAL, use of, in treatment of acute lead encephalopathy (Deane et al.), 409
Banthine Bromide, use of, in infantile pylorospasm (Levy and Zweifler), 673
Behavior disorders in children, treatment of, with Benadryl (Effron and Freedman), 261
in epileptic children (Peterman), 758
Benemid p-(di-n-propylsulfamyl)-benzoic acid, evaluation of: dosage schedule in children (Coriell et al.), 292
Blood coagulation factors, changes in, during first week of life (Owen and Hurn), 424
levels, peripheral, in health and disease: studies on 17-hydroxycorticosteroids in children (Ely et al.), 38
response of, to injection of certain hormones: studies of 17-hydroxycorticosteroids in children (Raile et al.), 46
Book Reviews:
Angiocardiography (Dotter and Steinberg), 395
Brain surgeon (Sharpe), 271
Child psychiatric techniques (Bender), 272
Clinical allergy (Hansel), 639
Current therapy 1953 (Conn, ed.), 775
Diabetes and pregnancy: blood sugar of newborn infants (Pedersen), 137
Die Frauenmilch—Lipase (Freudenberg), 776
Die Pflege des gesunden und des kranken Kindes (Catel, ed.), 640
Die Zusammenarbeit des Geburtshelfers des Kinderarztes und des Serologen bei der Prophylaxe und Therapie der Neugeborenen—Erythroblastose (Dahr et al.), 776
Diseases of the nervous system in infancy, childhood, and adolescence (Ford), 394
Essentials of infant feeding for physicians (Meyer), 395
Fanconi and Wallgren's textbook of paediatrics (Collis, ed.), 641
Human milk: yield, proximate principles and inorganic constituents (Morrison), 395
1952 year book of pediatrics (Gellis, ed.), 394
1953 medical progress (Fishbein, ed.), 641
Nurses handbook of obstetrics (Zabriskie and Eastman), 775
On the bringing up of children (Rickman, ed.), 639
Pediatric nursing (Benz), 775
Pediatrics in general practice (Hughes), 517
Pediatrie (Debré, Lelong, et al.), 640
Poliomyelitis (2nd International Congress), 640
Problems of infancy and childhood, 776
Rheumatic fever (Thomas, ed.), 272
Teratomas (Willis), 518

*January, pp. 1-140; February, pp. 141-276; March, pp. 277-400; April, pp. 401-524; May, pp. 525-644; June, pp. 645-780.

Book Reviews—Cont'd
The mentally retarded child (Levinson), 137
Tumors of the adrenal (Karsner), 518
Tumors of the central nervous system (Kernohan and Sayre), 518
What should I do. Booklet about accidents in children, 640
Young child can be happy in bed (Parker), 272

C

Caffey-Smyth syndrome (Jenkins and Scott), 586
Calcium Disodium Versenate in therapy of lead encephalopathy (Karpinski et al.), 687
Cancer, childhood (tumors, leukemia, and Hodgkin's disease) (Bufkin and Davison), 612
Cerebellar ataxia, acute, in children (Goldwyn and Waldman), 75
Cerebral blood flow, method for measure of, in infants and children (Baird and Garfunkel), 570
Chest development in early childhood (Kornfeld), 715
Chloromycetin palmitate: observations on absorption, blood serum levels, and urinary excretion (Yow et al.), 151
Chondrodystrophic calcificans congenita (Berrey and Kimball), 474
Chylous ascites in siblings (Lee and Young), 83
Clinical Conference:
Los Angeles Childrens Hospital: clinic on coccidioidomycosis, 739; hyperelectrolytemia and hyperosmolarity in infant, 742; ovarian feminizing tumor, 748; familial periodic paralysis, 751
Clysis, subcutaneous, terramycin by (Farley and Konieczny), 177
Coccidioidomycosis, clinic on (Los Angeles Childrens Hospital), 739
Comics (Bakwin), 633; (editorial), 779
Comments on Current Literature:
encephalomyocarditis, 267
endemic poliomyelitis, 509
epidemic pleurodynia, 770
rheumatic fever, 129
use of hyaluronidase in treatment of acute hemophilic hemarthrosis, 392
Congenital heart disease:
complete transposition of great vessels (Rushmer et al.), 189
Eisenmenger's complex in association with congenital tricuspid endocarditis (fetal) (Plachta and Speer), 325
syndrome of anomalous left coronary artery (Kelly et al.), 731
triatrial heart, case of (Doxiadis and Emery), 87
Congenital total hypertrophy of right upper limb, "right-armed acromegaly" (Morrissey), 361
Coronary artery, left, anomalous, syndrome of (Kelly et al.), 731
Correspondence (Tallerman), 132

D

Delinquency, juvenile (Bakwin), 387
Dermatoses, incidence of, among infants and children as seen in outpatient clinic at skin hospital in large city (Perlman), 700
Diaphragm, right, partial eventration of (Axler and Rehermann), 320
Duodenal atresin (Beck and Chohany), 432

E

Editor's Column:
acrodynia, 400
allocation of gamma globulin for polio prophylaxis, 777
bacterial allergy, 519
comics, 779
early home care or institution for retarded child, 396
gamma globulin polio problem, 273
hospital teaching program for parents of premature infants, 138
infant deaths from aspirin, 276
mentally retarded child, 521
new source of accidental poisoning in children, 642
role of technique in infant feeding, 140
snake bites, 643
Egressin and gentian violet, comparison of, in treatment of enterobiasis (pinworm infestation) (Askue), 332
Eisenmenger's complex in association with congenital tricuspid endocarditis (fetal) (Plachta and Speer), 325
Electrophrenic respirator, use of, in management of respiratory difficulty in postmeasles encephalitis (Weinstein and Colburn), 580
Encephalomyocarditis (Blattner), 267
Encephalopathy occurring during topical use of Asterol (Goldstein), 726
Enterobiasis (pinworm infestation), comparison of Egressin and gentian violet in treatment of (Askue), 332
Epileptic children, behavior in (Peterman), 758
Erythroblastosis fetalis, congenital sympathogonioma (neuroblastoma) of right adrenal simulating (Falkinburg and Kay), 462
fatal, deficient prothrombin and fibrinogen in (Rice), 231
Erythrocyte sedimentation rate for well children, study of (Hollinger and Robinson), 304

Erythromycin in treatment of pyoderma in children (Freeman et al.), 669
Eventration, partial, of right diaphragm (Axler and Rehermann), 320

F

Favism (Larkin), 453
Feeding, infant, role of technique in (editorial), 140
substitutes for cow's milk in (Glaser), 734
part of technique of, in etiology of diseases of young infant (Gottschalk), 54
Fetal and neonatal death, causes of, with special reference to pulmonary and inflammatory lesions (Arey and Dent), 1, 205
Fibrinogen and prothrombin, deficient, in fetal erythroblastosis fetalis (Rice), 231
Fractures of mandible and maxilla in children (Georgiade et al.), 440

G

Gamma globulin, allocation of, for polio (Office of Defense Mobilization), 636; (editorial), 777
polio problem (editorial), 273
Gelatin solution, 10 per cent, patient with nephritis treated with seventy-nine infusions of, observations over five-year period (VanderMeer), 339
Gentian violet and Egressin, comparison of, in treatment of enterobiasis (pinworm infestation), 332
Glycogen storage disease of liver in siblings (Traisman and Traisman), 654
report of case with abnormal glycogen structure in liver and skeletal muscle (Forbes), 645

H

Hemarthrosis, hemophilic, acute, use of hyaluronidase in treatment of (Blattner), 392
Hepatitis, infectious, in childhood, with special consideration of "progressive hepatitis" (Murphy and Johns), 707
Hodgkin's disease, childhood cancer (Bufkin and Davison), 612
Hyaluronidase, use of, in treatment of acute hemophilic hemarthrosis (Blattner), 392
Hydranencephaly, angiography in case of (Thelander et al.), 680
17-Hydroxycorticosteroids, studies of, in children; peripheral blood levels in health and disease (Ely et al.), 38
response of blood levels to injection of certain hormones (Raile et al.), 46
Hyperelectrolytemia and hyperosmolarity in infant, clinic on (Los Angeles Childrens Hospital), 742
Hyperosmolarity, hyperelectrolytemia and, in infant, clinic on (Los Angeles Childrens Hospital), 742
Hypertrophy, total, congenital, of right upper limb, "right-armed acromegaly" (Morrissey), 361

I

Immunization, early, during infancy, effect of, on kidney, liver, and blood tests (Schwartzman et al.), 450
of newborn infants with pertussis vaccine (Lippsett et al.), 301
Infancy, early, functional disorders of larynx in (Schwartz), 457
immunization during, effect of, on kidney, liver, and blood tests (Schwartzman et al.), 450
septic arthritis and osteomyelitis in (Heymann et al.), 561
Infant deaths from aspirin (editorial), 276
feeding, substitutes for cow's milk in (Glaser), 734
role of technique in (editorial), 140
in etiology of diseases of (Gottschalk), 54
hyperelectrolytemia and hyperosmolarity in, clinic on (Los Angeles Childrens Hospital), 742
intrathoracic cyst of enterogenic origin in (Kuipers and Wieberdink), 603
mediastinal lymphosarcoma in (Stich et al.), 235
Infantile cortical hyperostosis (Caffey-Smyth syndrome) (Jenkins and Scott), 586
in utero, familial occurrence of (Barba and Freriks), 141
pylorospasm, use of Banthine Bromide in (Levy and Zweifler), 673
Infants and children, incidence of dermatoses among, as seen in outpatient clinic at skin hospital in large city (Perlman), 700
method for measurement of cerebral blood flow in (Baird and Garfunkel), 570
of various age groups, comparison of serum levels following administration of oral and parenteral preparations of penicillin to (Huang and High), 657
intestinal resection in (Shellito and Bartlett), 558
isolated myocarditis in (Conlin and Mantz), 414
physiologic and clinical significance of immaturity of kidney function in (Barnett and Vesterdal), 99
premature, hospital teaching program for parents of (editorial), 138
teaching to walk: physiological considerations (Herzmark), 429

Infectious hepatitis in childhood, with special consideration of "progressive hepatitis" (Murphy and Johns), 707
Infusion valve, new (Hawkins and Vlazny), 589
Intestinal resection in infants (Shellito and Bartlett), 558
Intrathoracic cyst of enterogenic origin in young infant (Kuipers and Wieberdink), 603
Isolated myocarditis in infants (Conlin and Mantz), 414

J

Juvenile delinquency (Bakwin), 387

K

Kidney function in young infants, physicological and clinical significance of immaturity of (Barnett and Vesterdal), 99

L

Larynx, functional disorders of, in early infancy (Schwartz), 457
Lead encephalopathy, acute, use of BAL in treatment of (Deane et al.), 409
Calcium Disodium Versenate in therapy of (Karpinski et al.), 687
Leiomyosarcoma, pulmonary, in child (Killingsworth et al.), 466
Leukemia, childhood cancer (Bufkin and Davison), 612
Lupus erythematosus, disseminated, acute, with hemolytic anemia in 10-year-old child (Jacobs), 728
Lymphosarcoma, mediastinal, in infant (Stich et al.), 235

M

Mandible and maxilla, fractures of, in children (Georgiade et al.), 440
Maxilla, mandible and, fractures of, in children (Georgiade et al.), 440
Medical Progress:
acrodynia and mercury (Warkany and Hubbard), 365
childhood cancer (tumors, leukemia, and Hodgkin's disease), (Bufkin and Davison), 612
choice of antibiotic (Karelitz), 478
physiologic and clinical significance of immaturity of kidney function in young infants (Barnett and Vesterdal), 99
pink disease (infantile acrodynia): physiological approach (evaluation of adrenal function and importance of water and electrolyte metabolism) (Cheek), 239
substitutes for cow's milk in infant feeding (Glaser), 734
Mentally retarded child (editorial), 521
Mercury, acrodynia and (Warkany and Hubbard), 365
Mirror and reversed reading (Park), 120
Mist-O_2-Gen therapy and postural drainage for respiratory difficulties of newborn infant (Denton and Ross), 551
Myelogenous leukemia, chronic, in children (Cooke), 537
Myocarditis of unknown etiology (Fiedler's?) treated with ACTH (Garrison and Swisher), 591

N

Narcotic use, epidemic of, among school children in New York City (Jacobziner), 65
Nebulizer, continuous, new (Alevizer), for humidification and Alevaire therapy (Miller), 721
Neonatal and fetal death, causes of, with special reference to pulmonary and inflammatory lesions (Arey and Dent), 1, 205
Nephritis, patient with, treated with seventy-nine infusions of 10 per cent gelatin solution, observations over five-year period of (VanderMeer), 339
Neuroblastoma of right adrenal simulating erythroblastosis fetalis (Falkinburg and Kay), 462
Newborn infant, changes in blood coagulation factors during first week of life (Owen and Hurn), 424
immunization of, with pertussis vaccine (Lippsett et al.), 301
Mist-O_2-Gen therapy and postural drainage for respiratory difficulties of (Denton and Ross), 551
passive immunity in: vaccinia (Kempe and Benenson), 525
poor appetite in (Bakwin), 505
serum bilirubin levels in (Hsia et al.), 277
calcium and inorganic phosphate in, and their relation to different feedings (Graham et al.), 401
subcutaneous fat necrosis of (Ivy and Howard), 600
News and notes, 134, 270, 394, 515, 637, 772

O

Osteomyelitis, septic arthritis and, in infancy (Heymann et al.), 561
Otitis media in children, statistical study of: antibiotic era (Heller), 185
Ovarian agenesis (congenitally aplastic ovaries) in 3-year-old female (Cutler and Silver), 352
feminizing tumor, clinic on (Los Angeles Childrens Hospital), 748

P

Papain, treatment of pinworm infection (enterobiasis) with (Bumbalo et al.), 576

Paralysis, periodic, familial, clinic on (Los Angeles Childrens Hospital), 751

Parathion poisoning in children (Johnston), 286; (editorial), 642

Penicillin administered orally at intervals of twelve hours, effectiveness of (Huang and High), 532

oral and parenteral preparations of, comparison of serum levels following, to infants and children of various age groups (Huang and High), 657

Pertussis vaccine, immunization of newborn infants with (Lippsett et al.), 301

Pink disease (infantile acrodynia): physiological approach (evaluation of adrenal function and importance of water and electrolyte metabolism) (Cheek), 239

Pinworm infection (enterobiasis), treatment of, with papain (Bumbalo et al.), 576

Placental transmission of antibodies: vaccinia, passive immunity in newborn infants (Kempe and Benenson), 525

Pleurodynia, epidemic (Blattner), 770

Pneumococcus meningitis, four recurrent attacks of, with recovery (Tribiano), 609

Poisoning, parathion, in children (Johnston), 296; (editorial), 642

Poliomyelitis, allocation of gamma globulin for (Office of Defense Mobilization), 636; (editorial), 777

endemic (Blattner), 509

Postmeasles encephalitis, use of electrophrenic respirator in management of respiratory difficulty in (Weinstein and Colburn), 580

Progeria, rate of growth in (Cooke), 26

Program, hospital teaching, for parents of premature infants (editorial), 138

Prothrombin and fibrinogen, deficient, in fetal erythroblastosis fetalis (Rice), 231

Psychologic Aspects of Pediatrics:

behavior in epileptic children (Peterman), 758

comics (Bakwin), 633

juvenile delinquency (Bakwin), 387

mirror and reversed reading (Park), 120

poor appetite in newborn and young infant (Bakwin), 505

treatment of behavior disorders in children with Benadryl (Effron and Freedman), 261

Pyloric stenosis, hypertrophic, associated with adrenal insufficiency (Moree), 359

Pylorospasm, infantile, use of Banthine Bromide in (Levy and Zweifler), 673

Pyoderma in children, erythromycin in treatment of (Freeman et al.), 669

R

Reading, mirror and reversed (Park), 120

Respiratory difficulty in postmeasles encephalitis, use of electrophrenic respirator in management of (Weinstein and Colburn), 580

Retarded child, early home care or institution for (editorials), 396, 521

Rheumatic fever (Blattner), 129

prevention of (American Heart Association), 511

S

Serum bilirubin levels in newborn infant (Hsia et al.), 277

calcium and inorganic phosphate in newborn infant, and their relation to different feedings (Graham et al.), 401

levels, comparison of, following administration of oral and parenteral preparation of penicillin to infants and children of various age groups (Huang and High), 657

Snake bites (editorial), 643

Spleen, congenital absence of (Adler and Van Slyke), 471

Streptomycin, mode of action of, in relation to changes in spinal fluid sugar in tuberculous meningitis (Friedman et al.), 157, 161, 171

Subcutaneous fat necrosis of newborn infant (Ivy and Howard), 600

Sympathogonioma (neuroblastoma), congenital, of right adrenal simulating erythroblastosis fetalis (Falkinburg and Kay), 462

T

Technique, infant feeding, role of (editorial), 140

in etiology of disease of young infant (Gottschalk), 54

measure of cerebral blood flow in infants and children (Baird and Garfunkel), 570

new infusion valve (Hawkins and Vlazny), 589

obtaining blood specimens and giving transfusions in small infants (Kunz), 80

Terramycin by subcutaneous clysis (Farley and Konieczny), 177
Tetanus neonatorum (Spivey et al.), 345
Thorax, deformities of, of congenital or developmental origin (Lester), 195
Transfusions, giving, in small infants, technique for obtaining blood specimens and (Kunz), 80
Transposition, complete, of great vessels (Rushmer et al.), 189
Triatrial heart, case of (Doxiadis and Emery), 87
Tuberculous meningitis, mode of action of streptomycin in relation to changes in spinal fluid sugar in (Friedman et al.), 157, 161, 171
Tumors, childhood cancer (Bufkin and Davison), 612

V

Vaccinia: passive immunity in newborn infants, placental transmission of antibodies, and response to vaccinations (Kempe and Benenson), 525
Versenate in therapy of lead encephalopathy (Karpinski et al.), 687

W

Walk, teaching infants to: physiological considerations (Herzmark), 429
